FDD Abstract

OUTLINE OF STEPS INVOLVED IN CONSTRUCTION OF FREIGHTER AT NEPTUN SHIPYARD (51 pp: German/Russian; [REDACTED])

25X1X

25X1A

25X1A

This photostated document is a bound booklet, dated 1 November 1951 and prepared by the Neptun Shipyard, Rostock, which deals with procedures involved in assembling and equipping a 3,000-ton freighter. The text of the booklet consists of printed entries in German, with accompanying Russian translations of each entry, and the booklet is divided into the following two sections:

1) A step-by-step outline of the procedures to be followed in assembling the above-mentioned freighter on the slip. Information is given under three headings: a) number of step or operation; ~~KIX~~ a total of 287 steps are listed; b) number of section of part; c) designation of section to be assembled or part to be installed.

2) Twentyone perspective drawings of the above freighter, which bear numbers corresponding to the numbers of the steps referred to under (a) above. The drawings are to serve as a visual aid in following the steps outlined in text form, as described under (1).
